

ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

Date/Time: 11/26/02 1 30

Site Contact(s): Randy Leitner, Leslie Langlois, and David Ward
Phone: 303-966-3537

Regulatory Contact: James Hindman
Phone: 303-692-3345

Agency: Colorado Department of Public Health and Environment

Purpose of Contact: Advise Colorado Department of Public Health and Environment in the RFCA consultative process of the clean up approach to the T231 A tank spill

Discussion

Informed James Hindman of the clean-up process for the T231 A tank spill Mr Hindman had already seen the report on the spill The soil that was contaminated outside the T231 A tank secondary containment has been already drummed-up and the contaminated structures have had fixative applied to them

Spill clean up inside the secondary containment will be addressed as follows 1) Visible signs of contamination will be picked-up, 2) This effort will be followed by an RCT with an instrument checking for radiation contamination which will also be picked-up when detected, 3) Water, rain water and snow melt, that accumulates in the secondary containment will shipped to AWTS for disposal, 4) The remaining material including the secondary containment liner will remain until closure

Mr Hindman had no comment at this time
